THE REGION

A gorgeous tropical archipelago, the Whitsundays sit at the centre of the Queensland coast, 1,100kms north of Brisbane and 600kms south of Cairns. The region comprises 74 magnificent islands and the adjacent Whitsunday Coast, focussed on the resort town of Airlie Beach, an international sailing hub.

Most of the islands here are uninhabited and protected as part of the, protected as part of Whitsunday Islands National Park. But some of Australia's most exclusive resorts are hidden amongst the islands and wilderness.

The Whitsundays also offer easy access to the Great Barrier Reef, one of the seven wonders of the natural world. The turquoise lagoons and coral platforms here – including famous Heart Reef – are some of the most pristine on the planet. Closer to the coast, fringing reefs encircle many of the Whitsunday Islands – idyllic snorkelling spots awash with colourful coral and marine life.

The Whitsundays are blessed with boundless sunshine, across every season. Summer maximum temperatures average around 30°C, while warm winter days average 23°C. Water temperatures average 25°C year round making it perfect for sailing, diving, swimming, snorkelling or just lazing on the beach.
